NON-VOTING CITIZENS.

Poll tax receipts and certificates of exemption will have a greater usefulness this year than they had last. Last year there was no general election, while this year we the Southwest extends over two shall elect State, county and precinct officers and members of Congress as well. That they will have a greater usefulness should suggest that they would be in greater cemand this year than last. But that now, with equal propriety and with very logical deduction seems to be somewhat questioned by reports that have appeared in The News at odd times from here and there and are prophetic. For most of these have shown the payments to be to be made a World's Fair and if smaller than they were at the same dates last year. The rush during Federal Government on that basis the final week will have to be even greater than usual if the size of the electorate is to be no less than it

It is the judgment of virtually all of those who have diagnosed the political maladies of this country that it is not the misfeasances and malfeasances of public officers but the neglect of the civic duty of voting that so many citizens are habitually guilty of. How extensive that sin is is shown by the fact that"it is seldom that as many as Ours is a representative government in form, but to be representative in substance the exercise of public authority must have a much larger warrant than it does have when those who vote makes less than half of all who might have voted. The majority given in such elections is a majority of a minority, and the making from such elections is not the rule of the majority that is the vital principle of our governmental than a motivating cause itself. That day scheme. There are many voices to proclaim the sanctity of the right the penetration of Angelo-Amerito vote, and many of them are the cans into the Southwest. HE TEXAS CENTENNIAL DATE

Announcement of participation

WORTHAM & MARTIN

Owners and Publishers of the plans for the World's Fair in New by the Federal Government in York City in 1932 to celebrate the two-hundredth anniversary of the birth of George Washington should be an inspiration to Texans interested in the promotion of the Texas Centennial Exposition. Congress has been more than generous in its recognition of such fairs affecting other parts of the country. Many events of far less import to the United States than the Americanization of the Southwest have been so celebrated and their celebration has been materially assisted by federal funds. The Texas Centennial should receive the same degree of assistance, not only financial but also that involved in official recognition of the national aspect of the celebration. The Committee of One Hundred

in whose hands the preliminary plans for the Centennial rest has properly proceeded slowly. There has been so special hurry about holding the Exposition. The period of Anglo-American penetration of decades, and any notable date within that period one hundred years ago may properly be chosen for the exposition. Thus it might 15 be held this year, or ten years from equal timeliness. But the announcement of the Washington Duocentennial Exposition in 1932 injects a new factor in the situation. If the Texas Centennial is it is to win the participation of the it is manifest that the date of the Washington celebration must be taken into consideration so as to avoid conflict. World's fairs are avoid conflict. World's fairs are 24—high winds not ordinarily held, in the same 25—in the dicountry, within a short time of

each other. It must appear that plans for the Texas Centennial are limited which make the greatest menace, if not actually jeopardized by those for the New York celebra- 31tion. It would be difficult to get matters in readiness for a world fair in Texas before 1932, and if it is postponed long after that year half of those who might vote do the Centennial will be largely one of Texas independence or of its addition to the United States rather than of the winning for America of the Southwest. Reasonably the effect would be to tend to limit the scope of the celebration to a state-wide rather than a nation-

wide or world-wide observance. | Texas' independence was an vs. Pyle-Williams & Co., ,deht. event of great importance in American history, but as such it was a result of a greater event greater event was the beginning of Judge Warren Hicks voices of men who seem insensible of these pioneers who turned his eridge. the citizen which makes a large established the conditions which Simmons. A Type of Performance Never Before Obtained In Any Low Priced Car

Thousands have already driven the Improved Chevrolet.

They know its new smoothness, new stamina, new swiftness of acceleration.

They know that in performance it completely dwarfs every Chevrolet achievement of the past and that it ranks as the finest Chevrolet in Chevrolet history.

And if you are one who has not yet been behind the wheel, you have more than a treat in store. You have yet to experience a type of performance never before offered in any low priced car.

A performance so effortless, so smooth, so powerful, so spirited and thrilling in every phase, that you will call it nothing short of a revelation!

Chevrolet's leadership has been based on giving quality at low cost.

Now the Improved Chevrolet gives another reason for an even wider margin of leadership—performance the equal of which has heretofore been unattainable in the low-price field.

True, the Improved Chevrolet is easier-riding. True, there is striking beauty in the New Duco finishes. True, Chevrolet prices are lower. But the one great and outstanding reason why you and every other motorist should drive this splendid car, is to experience the matchless performance it now introduces.

Drive where you will—and as long as you like, through straffic, through sand, through mud, over hills—and over mountains, if you please. Expect something really new, really worthwhile, something really unique—and you will not

to disappointed. Low Prices Journal Low Prices

ARMY AIR OFFICER DESIRES STEP OUT SERVICE ENTIRELY

By Associated Press. , Washington, Jan. 27.—Colonel William Mitchell resigned today

from the army.

The convicted air officer, under five years suspension from the army because of his criticism of the government aviation policies, put his resignation in this single sen-

"I hereby tender my resignation as an officer of the United States army to take effect February 1, 1926."

The letter was dated today and addressed to the adjutant general of the army, through the commanding general of the district of Washington.

Whether the resignation will be accepted or not has not been fully

Some army precendents indicate that in the case of such withdrawals from the army they should state directly that the resignation is submitted for the good of the

Final decision will rest with President Coolidge, who two days ago approved, with modifications; the sentence of the court martial. It is the belief by Matchell's friends that if he is permitted to step out of the army he will accept theoffer to continue on the lecture platform his crusade for the reorganization of the national defense in order to give a more prominent place to the development of air power.

Washington, Jan. 26.—Acceding temporarily to the advance of friends. Col. William Mitchell withheld Tuesday submission of his resignation from the army, which he otherwise probably would have started on its way to President Coolidge.

Coolidge.

He conferred with Representative Frank R. Reid (Rep.), Illinois, chief defense counsel during the court-martial trial, and with other friends, and it was late in the day before any decision was reached respecting a resignation.

Despite the nature of this decision, the impression prevailed that before the week ends, the letter requesting separation from the military service would be placed in the president's hands

the president's hands.

While Colonel Mitchell himself declined to comment upon the president's action in approving with modifications the court's sentence, it was said at the White House that Mr. Coolidge had not taken final action in the case with the "unseemly haste" which Mr. Reid complained of. It developed that the president and Secretary Davis of the War Department had conferred on the subject for several days before the sentence was modified and affirmed.

Several offers of private employment have been received by the Colonel and taken under consideration. These include a proposal that he undertake a nation-wide lecture engagement, and this is known to have certain attractions for him. Its acceptance, however, probably would entail his resignation from the army.

of some of the other presidents. Rufus Hardy, who was a member of Congress during the administration of Wilson, declared that this memorial would not be the final monument to Wilson, but only the beginning. He referred to the hisory of America in that the generation living with great presidents did not erect the final monuments. Te stated that the framework of he League of Nations was the work of Wilson and that history, in his judgment, would rank that work with the Declaration of Independence and the Constitution as the and that this would come about within the next century. He referred to the erection of the mon-uments to Washington and Lincoln forty years after their deaths. Certificates for those who con-

ADHERENCE WORLD **COURT IS VOTED BY SENATE 76 TO 17**

POPULAR YOUNG BUSINESS DRASTIC CLOTURE RULE **NECESSARY BRING MATTER** TO VOTE

> By Associated Press.
> Washington, Jan. 28.—Adherence of the United States to the world court with reservations was approved Wednesday night by the Senate, 76 to 17. The vote brought to an end one of the bitterest fights the Senate has had since the memorable struggle over the League of Nations. Mrs. Woodrow Wilson, wife of

the war president, sat in the crowded galleries with rapt attention as the Senate cast the vote giving its "advice and consent" to American membership in the court league which her husband brought back from Paris and which the Senate rejected on March 19, 1920

Operating under the drastic clo-ture rule limiting debate, the Senate worked ar past its usual hour of adjournment in order to reach the final vote. There were five firm of Anderson & Anderson. He hours of debate and then a rapid was a quiet and anassuming young fire of roll calls on which every reservation pressed by the opponents of the court was rejected by overwhelming majorities.

ly after Senator Johnson (Rep.) of California had made a dramatic last-minute resolution of adhesion ing, forty Republicans and thirty six Democrats casting their ballots for adhesion and fourteen Republicans, two Democrats and the one Farmer-Labor member voting in the negative.

For Tax Assessor.

In another column in today's paper will be found the formal anuncement of D. J. Martin as a andidate for the office of tax assessor of Navarro county. In connection with making his anouncement Mr. Martin made the ollowing statement:

"I was born and reared in Navarro county on a farm. I am 37 years old. Have assessed the city of Corsicana for Mr. Elkins for the past three years. I am thoroughly acquainted with the work. My family is not one of office ekers—none of them have ever asked for an office. I have political platform only that work and give service. If elected to the office of tax assessor I expect not an easy job, but two o the hardest years of work that nave ever done, and I will give to he county a set of the most com plete and best records that it has ever had. My only promise is that if elected, I guarantee to make
